

## **Plate Criteria:**

1. The Registrar will not knowingly issue a requested Vanity registration plate containing a group of letters or combination of numbers and letters if the plate is either offensive or duplicative of an existing registration. Specifically, the Registrar will not issue a requested combination of letters and numbers or letters alone if:

- ◆ Such combination is vulgar in that it is in poor taste or is degrading or is considered a profanity, including a swear or curse word, not usually displayed in the community for general viewing
- ◆ Such combination is derogatory in that it disparages or belittles someone or something
- ◆ Such combination is obscene in that it refers to a sexual body part, a term for or most closely associated with a sex act, or the availability for sex
- ◆ Such combination is an expression of contempt, ridicule, or superiority of a race, religion, deity, ethnic heritage, gender, sexual orientation, or political affiliation
- ◆ Such combination is an expression of “fighting words” designed to inflame passions and possibly lead to a violent confrontation
- ◆ Such combination would appear to duplicate a registration already issued

2. The Registrar may reject a requested combination for other reasons if she reasonably determines that issuance of the requested combination would be inappropriate as a state-issued registration plate.

3. It is irrelevant whether offensive material is communicated when reading the vanity plate from left-to-right or from right-to-left, when viewed through a rear view mirror, or whether it is in a foreign language or in a code which only a small segment of the community may be able to readily decipher.

4. The Registrar reserves the right to recall a vanity plate that has been issued, even if such registration and plate has been renewed. Once the Registrar becomes aware of the offensive nature of a group of letters or combination of numbers and letters, or a plate that appears to duplicate an existing registration, that is sufficient cause for rejection or recall.
